NEW PREVIEW

CAMFIX

New Camfix... HPMC Toolholders for Multi-Tasking Machines with Bottom Fed High Pressure Coolant Channels (JHPMC).

Highlights

New C# HPMC Bottom Fed Coolant Available with New Generation Multi Connection (MC) JHP Turning Tools (JHP-MC).

Advantages

- Achieve best performance by use of Multi Connection (MC) JHP turning tools with high pressure coolant directed to the cutting edge.
- Guaranteed longer tool life in all applications even with standard pressure JHP-MC tools.
- Suitable for standard turning tools, non-JHPMC, with coolant from the standard holder's nozzle.
