NEW PREVIEW

LOGIQ 3 CHAM

3 Flute Drills with Exchangeable Heads Now Available in 10 L/D Ratio.

Highlights

ISCAR Expands the Application Range of the Successful LOGIQ-3-CHAM Drilling Line with a 10 L/D Ratio Holder.

The new holder with a 10 L/D ratio has a unique flute design that utilizes the productivity advantages of the LOGIQ-3-CHAM line. The flute length has a minimal influence on the tool's structural strength.

- The recommended cutting conditions are the same as those recommended for the existing LOGIQ-3-CHAM line.
- The new 10 L/D holder is appropriate for any LOGIQ-3-CHAM drilling head geometries with the same pocket size.
