## NEW PREVIEW

### LOGIQ4TURN

Expanding the LOGIQ-4-TURN Line with New Sizes and Toolholders.

#### Highlights

ISCAR Expands LOGIQ-4-TURN to Include a Small Insert Size of 06mm.

Due to the very positive feedback for the double-sided positive turning inserts, ISCAR expands the LOGIQ-4-TURN variety to include a small insert size of 06mm.

This will help to utilize the unique cost-effective solution for Swiss Type and small CNC lathe machines.

Cost effective compared to CCMT.

Unique dovetail clamping.

Unique chipbreaker for superior surface finish.

A wide variety of grades and chipbreakers.
